COVIDIEN WarmTouch. Patient warming system. Adjustable temperature in 4 steps (32°C, 38°C, 43°C, 45°C Boost). Delivery includes transport frame and air hose, used. We recommend the use of convective warming pads from Moeck&Moeck. These are compatible with almost all patient warming systems. Moeck&Moeck also offers special warming pads for veterinary medicine. Please request a quotation directly from Moeck&Moeck: vet@moeckundmoeck.de
