Product description

Heyer Kemperhof with ABV-A respirator on Siemens trolley for operation with Selectatec Vapor, used. This item is exclusively intended for veterinary use and export. The standard inlet pressure for anaesthesia units is approx. 5 bar. If you would like to operate your device with an oxygen concentrator, we must convert the device to concentrator operation. The costs amount to EUR 89.00. This conversion is only possible for devices used in veterinary medicine.
